

Assessing and Analyzing Multi-Species Natural Forests

A workshop presented by Klaus v. Gadow (KG)

3. – 13. May 2018

Proposed Program

Date		Activity
3. 5.	Thursday	KG arrives in Trabzon at 21:50pm
4. 5.	Friday (Trabzon)	discussions with colleagues and visiting Sumela Monastery
5. 5.	Saturday (Artvin)	presentations related to the field work; select a site
6. 5.	Sunday (Artvin)	weekend activity; preparations for the week ahead
7. 5.	Monday (Artvin)	measure 1 circular plot in the forest (1000 m ² ; r=17.84 m)
8. 5.	Tuesday (Artvin)	analysing the field data using R
9. 5.	Wednesday (Artvin)	measure 1 rectangular plot (400 m ² ; 20 x 20 m)
10. 5.	Thursday (Artvin)	analysing the circular and rectangular plot data using R
11. 5.	Friday (Artvin)	workshop: preparing a publication
12. 5.	Saturday (Artvin)	workshop: preparing a publication
13. 5.	Sunday	Return to Germany

Possible Presentation Topics:

A: "Permanent Forest Observational Studies"

B: "Forest Structure and Diversity"

C: "Designing Forest Ecosystems"

Possible Publication Topic:

"A critical Analysis of the Concentric Plot Design"

Klaus v. Gadow is an Extraordinary Professor at the University of Stellenbosch/South Africa, an adjunct Professor at the Beijing Forestry University and a retired Professor of Forestry at the *Georg-August-University* in Göttingen/Germany. He continues to be active in research and teaching. His special research interests are forest observational studies, tree modelling and forest design.

The Hosts

Asst. Prof. Dr. Aydın Kahrıman	Prof. Dr. Zafer ÖLMEZ
Artvin Çoruh University	Artvin Çoruh University
