

**ONLINE LAUNCH**

# ECOSYSTEM SERVICES VALUATION DATABASE

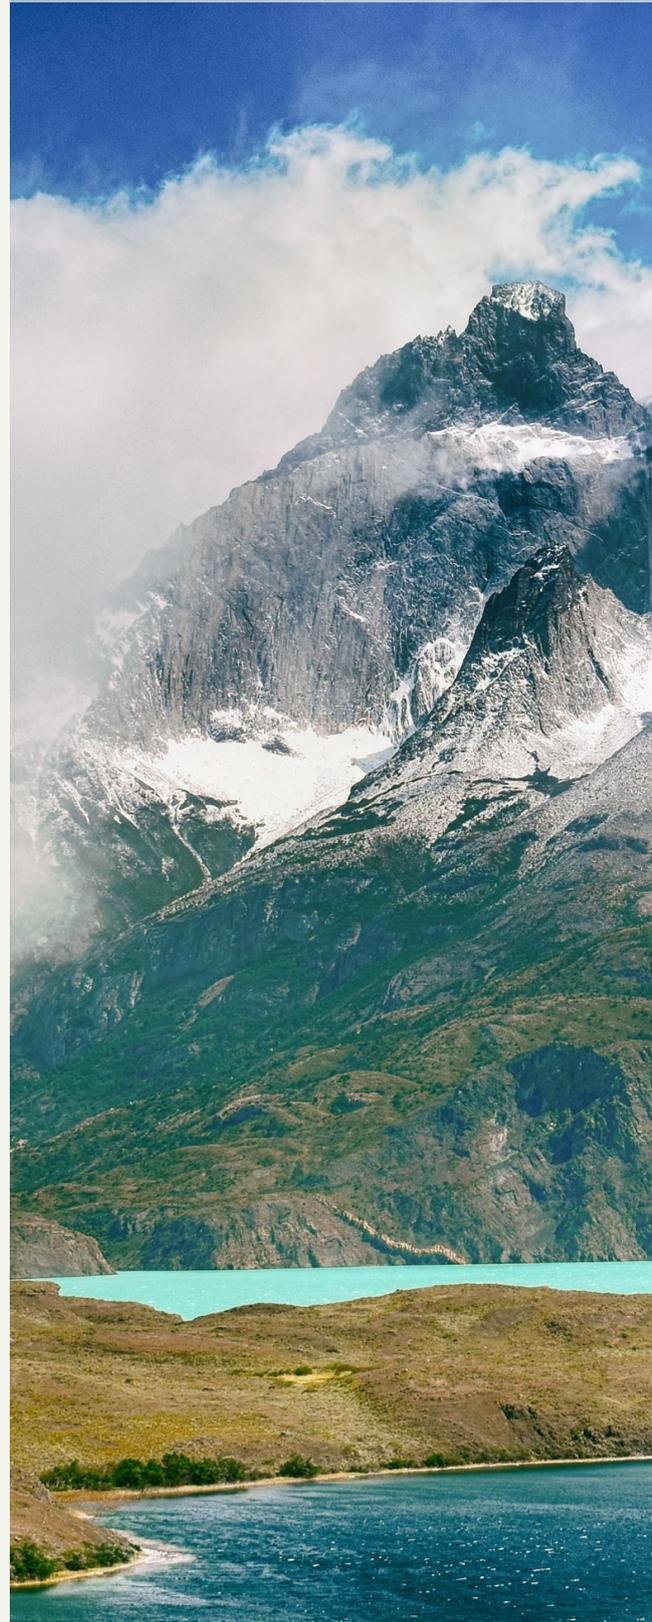

**Use the database to assess  
the monetary value of  
nature anywhere on earth**

What ecosystem services does nature provide? What is the monetary value of these services? How to compare different values?

The Ecosystem Services Valuation Database, ESVD, gives the answers. Join the online launch event hosted by the Foundation for Sustainable Development and the Capitals Coalition to find out more about the ESVD and how your organisation can use it to bring nature into decision-making.

**October 14  
1:30 PM to 3:30 PM (CET)**
